## Benefits of REACH BAGS PDS

- Save Time - Save time by automating the bags Pattern Design and Pattern Grading process.

- Eliminate Errors - Take the monotony out of bags Pattern Design and Grading, leverage custom made tools and libraries and automate the workflow eliminating human errors.

- Collaborate Easily - Share the digital patterns of bags with team members, customers, suppliers and partners, as required, easily and fast to arrive at decisions faster.

- Easier Project Management - Manage various projects easily by having all details of digital patterns of different orders for bags easily available for ready reference at any time.

- Accelerate Business Velocity - Rev up your business engine and accelerate your business in the digital economy by combining easy collaboration, effective project management and by eliminating errors.

- Build a Strategic Competitive Advantage - Returns On Investment is a function of Business Velocity and Margins. REACH Bags PDS enables higher Margins while accelerating your Business Velocity and can help you build a long term, sustainable competitive advantage.

- ➢ *Save Time*
- ➢ *Eliminate Errors*
- ➢ *Collaborate Easily*
- ➢ *Easier Project Management.*
- ➢ *Accelerate Business Velocity*
- ➢ *Build a Strategic Competitive Advantage*

## REACH Bags PDS for Researchers

- If you are a researcher interested in studying the impact of technology on the local economy or generating employment for women or how to leverage deep learning models for Bags merchandising or similar other interesting areas, we would like to talk to you.

## What does REACH Bags PDS do?

Manually making the patterns for bags is a cumbersome, laborious and error prone process.

Any error in bags patterns will lead to significant waste of time and resources in downstream processes in bags creation process.

In a competitive bags market, the ability to develop new bags products and get these to customers at the right time is critical to survive, grow and thrive.

REACH Bags PDS enables teams across design, prototyping, manufacturing and marketing in bags creation to collaborate easily to ensure that accurate bags patterns are made easily and fast.
