

Way Forward

Please write to us at info@reach-tech.com or message us at WhatsApp +91- 8459278496 to request a call back.

We offer a number of engagement options.

1. REACH CAD software license purchase with or without Online / Onsite Training.
2. REACH CAD software rental/ subscription for 1 (One) day to 1 (One) year with or without Online / Onsite Training.
3. Online / Onsite Training on REACH CAD. We provide REACH CAD software licenses and Trainer. You provide Class Rooms and Trainees. We also leave REACH CAD software licenses with you for 1 (One) week to 3 (Three) months for Trainees to practise. We offer training in over 50 different languages.

Benefits of REACH Composites Nester

- Save Material - Drive down costs by benefiting from the most advanced algorithms leveraging Artificial Intelligence to develop optimal nested layouts for composites.
- Save Time - Save time by automating the nesting process. Let the algorithms work overnight, even when no one is around, and have the nested layouts of composites ready in the morning.
- Collaborate Easily - Share the nested layouts of composites with team members, customer, suppliers and partners, as required, easily and fast to arrive at decisions faster.
- Easier Project Management - Manage various projects easily by having all details of nested layouts of various orders for composites easily available for ready reference at any time.
- Accelerate Business Velocity - Rev up your business engine and accelerate your business in the digital economy by combining easy collaboration, effective project management and by eliminating errors.
- Build a Strategic Competitive Advantage - Returns On Investment is a function of Business Velocity and Margins. REACH Composites Nester enables higher Margins while accelerating your Business Velocity and can help you build a long term, sustainable competitive advantage.

REACH COMPOSITES NESTER

For Non Profit Organisations

Nesting Software for Composites

Industry 4.0 Artificial Intelligence Machine Learning Analytics

Intelligent Solutions for Composites Sector

REACH COMPOSITES NESTER

- *Compress Product Development Time prototypes.*
- *Save Resources*
- *Collaborate Easily*
- *Easier Project Management*
- *Accelerate Business Velocity*
- *Build a Strategic Competitive Advantage*

What does REACH Composites Nester do?

A significant part of the cost of composites products is material cost.

In a competitive Composites market, the ability to provide Composites at prices attractive to customers while protecting margins for the firm is critical to survive, grow and thrive.

A lot of material is wasted in Composites manufacture, as the optimal packing of patterns involves very, many permutations and combinations. This would be a challenging task even for a highly skilled pattern lay planner.

REACH Composites Nester leverages new generation, powerful Artificial Intelligence (AI) tools to create optimal layouts of patterns saving significant quantities of material.

REACH Composites Nester will enable you create an effective material cost management system.

REACH Composites Nester for Non Profit Organisations

- Special Prices and grants are available for Non Profit Organizations. We are particularly keen on collaborating with NPOs working with marginalized people to enable wage and self employment among them.
- We offer REACH Composites Nester software, training, e-learning content, support for market and finance linkages, linkages to industry experts and government agencies.
- One of REACH 's goals is to leverage technology to create opportunities for all. Please write to us at write to us at info@reach-tech.com or message us through the contact form.
