What does REACH Eleganza do?

Manually making the patterns for Furnishings is a cumbersome, laborious and error prone process.

Any error in furnishings patterns will lead to significant waste of time and resources in downstream processes in Furnishings creation process.

In a competitive furnishings market, the ability to develop new furnishings products and get these to customers at the right time is critical to survive, grow and thrive.

REACH Eleganza enables teams across design, prototyping, manufacturing and marketing in furnishings creation to collaborate easily to ensure that accurate furnishings patterns are made easily and fast.

REACH Eleganza for Researchers

- If you are a researcher interested in studying the impact of technology on the local economy or generating employment for women or how to leverage deep learning models for home furnishings merchandising or similar other interesting areas, we would like to talk to you.
