

# COMPUTERIZED AUTOMATIC INDUSTRIAL FABRIC CUTTING MACHINE

---

**MFC Series**  
Model No. 7081

Precise and cost-effective fabric cutters, designed to streamline workflow and enhance productivity.

User-friendly fabric cutters for effortless fabric cutting, ensuring accuracy and efficiency. Innovative fabric cutters that minimize waste and maximize productivity, perfect for aspiring designers.

Versatile fabric cutters that offer professional-grade cutting capabilities at an accessible price point.

High-quality fabric cutters tailored to meet the needs of every designer, maximizing efficiency and reducing costs.

<b>Air Pressure</b>	6 KPS
<b>Cutting Thickness</b>	Max 50 mm
<b>Cutting Tolerance/ Accuracy</b>	±0.1mm - 10.0mm
<b>Cutting Speed</b>	700-1000mm/s
<b>Cutting Type</b>	Straight Knife continuous Up-down Cutting
<b>Dimension</b>	5900*2750*1300mm
<b>Format Support File</b>	.dxf, .png, .jpg, .psd, .cdr
<b>Interface</b>	Ethernet
<b>Machine Power</b>	11 KW
<b>Operating Temperature</b>	570°C
<b>Software</b>	Automatic cutting system Copyright
<b>Voltage</b>	AC 110V/220V
<b>Weight</b>	3000kg
<b>Working Area</b>	1600×2000mm
