

HIGH SPEED INKJET PLOTTER

NIP Series

Model No. 2181

Explore the versatility of our inkjet plotters, equipped with multi-functional capabilities that adapt to various printing tasks, making them a flexible solution for all your needs.

Enhanced prints with our inkjet plotters, featuring improved technology and augmented features that refine the printing process and deliver outstanding results.

Experience the efficiency of our precision-driven mid-level inkjet plotters, ensuring accurate and precise prints with meticulous attention to detail, catering to even the most demanding projects.

Efficient performance, saving time with their productive printing capabilities and delivering streamlined and optimum results.

Plotting Width	2000 mm
Plotting Speed	1500-1800 mm/s
Processing Area	1850-2000 mm
Plotting Resolution	150-600 DPI
Max Paper Feed Width	1950 mm
Max Cutting Feed Width	1800 mm
Print Media	Paper roll with diameter up to 28cm
Voltage Requirement	240V
Dimensions	2400*900*750mm
File Format	DST, DWG, DXF, CDR, PSD, PNG, JPEG
Plotting Precision Tolerance	0.025 mm
Pc Interface	USB
Noise Level	<39db
Power	120 W
Voltage	AC220V/110V, 50Hz
Operating Temperature	10-40 Degree Celcius
Weight	450 KG
